A dictionary is a good place to learn new words. A dictionary tells you the meaning or meanings of a word. Words in a dictionary are placed in alphabetical order. Write the words below in alphabetical order. (Write the words that begin with a first, then the b words, then the c words and so forth.) Next, draw a line from the listed word to its picture. The first one has been done for you.

Page 2

A dictionary is a good place to learn new words. A dictionary tells you the meaning or meanings of a word. Words in a dictionary are placed in alphabetical order. Write the words below in alphabetical order. If words have the same first letter, then you must go to the second letter to see which word comes first. Next, draw a line from the listed word to its picture. The first one has been done for you.

A dictionary is a good place to learn new words. A dictionary tells you the meaning or meanings of a word. Words in a dictionary are placed in alphabetical order. Write the words below in alphabetical order. If two words have the same first and second letters, then you will need to look at the third letter to determine which one comes first. Next, draw a line from the listed word to its picture. The first one has been done for you.

Page 4

Every page in the dictionary has two guide words at the top. The guide word at the top left tells you the first word on the page and the guide word at the top right tells you the last word on the page. Remember, words in the dictionary are listed in alphabetical order. Put an X next to the words you would find on each dictionary page with the two guide words in bold print.
